is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-Its effects commence by deposition from the system. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. Such a medicine we supply in

It is com-bined from the most active remedials that have bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISKASES, ST. ANTHONY'S FIRE, ROSE, OF ERYSIPELAS, PINPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, and SALT RHEUM, SCALD HEAD, RINGWORK, RHEUMATISM, SYPHILITIC and MERCURIAL DIS EASES, DROPSY, DYSPERSIA, DEHILITY, and, indeed, ALL COMPLAINTS ARISING PROX VITIAindeed, ALL COMPLAINTS ARISING PRON VITIA-TED OR INFURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

ing in biliary derangement, caused by the Halaria of Hisamatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly hamaless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the miasmatic poison of Fever And Acur from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the chespest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilions districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinina or mineral, consequently it produces no quinism or wher injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the minimatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bouels, Code, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Curr" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarasparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarasparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afficient alloweitisens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Benovula and Benovulous Confriguent, Bauvernous and Benovulous Confriguent, Bauvernous and Benovulous Confriguent, Scald Head, Struitte and Struithic Approximations, Manegurial Disease, Daores, Nau-rections, Manegurial Disease, Daores, Nau-

PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUX, DESILITY, DYS-PEPSIA AND INDIGESTION, EATSFERIAS, ROSS ON ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Invustry of THE BLOOM

class of complaints arising from Isruatry of THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the times by expulsion of them many rankling disorders are mipped in the bud. Multitudes can, by the sid of this remedy, spare themselves from the endurance of foul cruptions and ulcatous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, exuptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live loager, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been engained been ends. But the world has been legigibused extracts of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it,

for it, but more because many preparations pretending to be concentrated extracts of it, contain but little of the virtue of Sarasparilla.

contain but little of the virtue of Sarasparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarasparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarasparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarasparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cleat. Still we call this compound Sarasparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
